

Security Key Ports, NFC Reader, Mobile Access, FIDO® Ready

KSI-2100 HRPB-23 combines convenient, secure logon with auto logoff

HID®-powered converged access
brings contactless smart card,
mobile, and FIDO® authentication
into one secure desktop
experience

- ✖ Integrated HID OMNIKEY® 5127CK Mini reader module
- ✖ FIDO®-based protection using the HID® Crescendo Key Series
- ✖ Mobile credential support: contactless logon via HID Mobile Access®
- ✖ KSI-2100 HRPB-23 leverages advanced HID® technology

FIDO2-ready, passwordless solution.

KSI integrates reliable, trusted HID components to support modern identity and access management strategies for multi-factor authentication in shared, hybrid, and high-security workstation environments

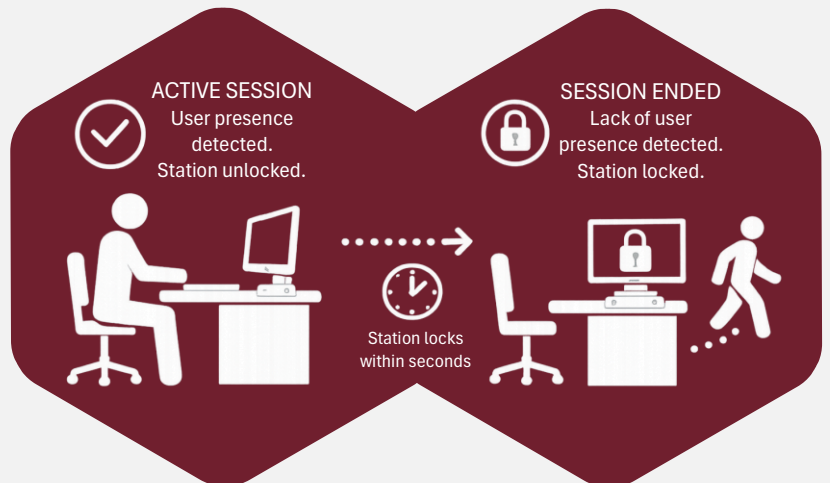

KSI PresenceLock™ Auto Logoff Protects Vacant Workstations

Log off with silent walkaway
human presence detection

Prevents unauthorized access of an
active session at a vacant desktop

Simple to program detection zone
settings: on, off, distance, timing

Locks a workstation within
seconds after user departure
